Two Hundred Hogsheads of To acco Burned.

Covered by \$13,000 Insurance. The tobacco rehandling house o J. Y. and T. D. Gray, in the eastern part of the county, between Fairview and Pembroke, was destroyed by fire early Tuesday night. The building was a frame barn 48x60 feet and seven tiers high.

A representative of the Kentuck tax interviewed Mr. T. D. Gray Wednesday in regard to the loss. He said the tobacco burned cost the firm about \$17,000 or \$18,000. About 200 hogsheads were lost, oul; about 3 or 4 hogsheads being prized and ready for market. There was from 300,000 to 350,000 pounds, which was to have been re-handled and shipped to Hancock, Hallums & Co of Clarksville. The firm has bought largely for several seasons and prob-

A "Rain" Tree.

Paducah Nows.1 At the residence of Squire T. C. Leech, is a tree which has for the past 48 hours or more excited considerable interest among the household dripped lightly as trees do just after a rain. The dripping was observed night before last when Mr. Ton dripping has continued, at times harder than others, and doubtless the dripping still continues. A News Mr C. F. Ricke and Mr. E O. Leigh, visited the tree just after noon to-day and were rather astonished to observe the peculiar fact mentioned above However, there is nothing mysteriou about the very singular occurrence

as Capt. Cobb was able to explain "The tree," said the captain, and the dying leaves bore him out in the statement, "is deseased and dying at the trunk and the sap, (it is a maple) which should now be descending to the roots and cannot, is simply oozing out of the limbs, and hence the drip ping of the supposed water. The tree," added the captain, "will never leave again, as it will die."

This enterprising company is constantly increasing its business and ually extending over the Southern states and they now do a large whole sale trade in their specialties, Perfec tion Elevator Pumps, saw-mills and store fronts. This class of work is done in a style unsurpassed in the South and orders are constantly pouring in from adjoining states. They have the most improved foundry machinery for making their own Iron and employ none but the most skillful workmen.

The Perfection Elevator Pump is their own invention and possesse many advantages over other pumps They have lately increased their facilities for the rapid manufacture o these pumps in large quantities for the wholesale trade, but so rapidly have orders come in that they are yet unable to supply the increasing demand with the promptness they would like.

They are also prepared to do every kind of general repair work on ma chinery, no matter how complicated.
